Twenty-four Lives Lost by a Coast Wreck-Utah Items-Suicide

[SPECIAL DISPATCHES TO THE RECORD-UNION.]

AN OCEAN HORROR.

Loss of an English Bark and Twenty-four Lives, Up North. San Francisco, February 6th.—Telegrams received here to-day report a terrible wreck and loss of life on the Washington Territory coast, the first serious affair of the kind in many years. The ill-fated vessel was the British bark Abercorn, an iron craft, en route from England to Port-

It appears that she arrived on the 1st in stant, but was unable to cross the Columbia river bar, and put to sea in a neavy storm to await a more favorable opportunity to enter. The gale drove her to the northward, and early on the next morning she was wrecked on the coast near Gray's Habor. The sea was so high that the officers and crew could not leave the vessel. They tried to do so, but without avail, and

ALL PERISHED MISERABLY, Except two seamen and the apprentice. They were saved by some Indians who happened to be on hand when the wreck occurred. The names of the saved are not known, nor is it yet known how many lives were lost. It is supposed that there were twenty-seven men on board, and the loss of life is placed at twenty-four men.

The disaster occurred on a point just out side the south entrance to the harbor. The surf was so high that no one could enter it until the morning of the 2d instant. As there is no life saving station near the place of the disaster, the canoes of the In-

dians were used as soon as possible.

The Abercorn was a comparatively new vessel. She was constructed at Giasgow only two years ago, and registered 1,262 tons net. Her length was 238½ feet. The vessel was worth \$65,000, and the cargo of railroad iron, without the duty paid, was worth \$50,000. The loss is total, but is fully covered by insurance in English com-

THE REPORT CONFIRMED.

Copyright, 1888, by the California Associated Press. PORTLAND, February 6th. - The Mer chants' Exchange to-night received a telegram from Astoria, via Shoalwater Bay onfirming the report of the loss of the British bark Abercorn. She went ashore late Sunday night, January 29th. The weather was very thick, and she struck twelve miles north of Gray's Harbor, one of the dreariest, most barren stretches of the coast, inhabited only by Indians. All hands were lost, except two men and one pprentice boy, who were saved by Indians. Among those lost is Pilot Charles Johnson, of Astoria, who boarded the vessel off the Columbia river entrance on January 23d. The vessel had a cargo of rails for the O. R. & N. Company.

### LIVERMORE COAL.

Coal Mines in Contra Costa to be Devel-

Copyright, 1888, by the California Associated Press.] LIVERMORE, February 6th .- A survey is eing made for the railroad from Liver more to the coal mines. The party is in charge of Engineer T. Newberry. The road will be about eight miles and owned by the Livermore Coal Mining Company. At the mine they are sinking a shaft on a 4-foot vein, and expect to begin sinking and tunneling on the 8-foot vein to-morrow. Within twenty days the daily output is expected to be 50 tons and within

These mines have lain dormant for years, t the present high prices for coal will cause their development, and, with rail-coad facilities, will secure a good market. The coal is superior to any coast coal except Wellington, and is used for blackmithing with good results.

Berlin, February 6th .- The announce ment that Prince Bismarck would speak on the military bill, drew a general throng of ong before the day's business was begun the galleries were filled to repletion. Leopold, son of the late Frederick Charles, occupied the court box, while the diplomats' gallery was crowded with different epresentatives and their families.

Prince Bismarck was enthusiastically luded, unless the rupture between Russia reeted on his way to the Reichstag Palace and Germany and Austria comes to pass by the dense crowds which lined the route along Wilhelm Strasse to the Palace. He entered the Reichstag at two minutes after one, and was received with deafening cheers.

The House proceeded with the first reading of the military loan bill, and merely a question of weeks. Prince Bismarck arose to address the House. He said : "I do not believe I can add anything to

These men never want re-registration; it would suit them better if there was no registration at all. Indeed, forced to endure a register, they "get even" with it by voting just as many dead men, absent voters and duplicated names on the register as they can. The desire of these men ought to be antagonized by all who favor fair play, a free ballot and an honest count. ### POLICE COURT.

Angelo Domentini, the Rape Fiend, Held

to Answer, with Bail at \$10,000. Yesterday morning a crowd large enough to fill a town hall blocked the doors and windows of the Police Court-room, in eager anticipation as to how the case of Angelo Domentini, charged with rape, would be disposed of. The prisoner is a heavy-set man, about 35 years of age, with dark features and a determined countenance. During the whole of the testimony he hung on the railing of the dock, and with a frown upon his face listened attentively. When he was first arrested he denied all knowledge of the deed, but Sunday last he confessed the whole affair to officers Sullivan and Able, but said that the little girl had been following him around and after he had drawn a gallon or so of wine from a cask then, he says, she con-

sented to the outrage.

The girl, Mary Weideman, is a pretty lass of 12 summers. When she came into the Court-room she hung her head somewhat, as if afraid to look at anybody. She said she did not want to make her state-ment before so many people, and the Court accordingly ordered the room vacated by the spectators. After this was done she related the story of her outrage in a clear and simple manner, and admitted that she did ask Angelo for some cigarette pictures.

The rest of the testimony for the prosecution was then beard. cution was then heard. Officers Sullivan and Able testified as to Angelo's having made the confession in their presence, and Chief Dillman also read a statement of the affair which he had written, and which

Domentini said was correct.

Here the prosecution rested, and Domentini took the stand, testifying precisely to what he had said to Chief Dillman and the

After all the testimony was taken on both sides, Judge Buckley said there could be no doubt as to the prisoner's guilt. He thought that any jury would convict under such strong testimony, and accordingly he ordered the defendant to answer before the Superior Court, with bail in the sum of

THE EVANGELISTIC MEETINGS. The Several Services Held Yesterday and

Last Evening.

The Hammond revival services were in full force yesterday. They have been opened as a campaign, with three services daily-a morning prayer and praise meeting at 9:30 at the Ninth-street Baptist San Joaquin to re-survey and establish the the general evening service at the old Paboundary between the counties, gave an | vilion, corner of Sixth and M streets, at 7 P. M All of these services were largely attended yesterday. The morning prayermeeting brought together a large number for the early hour. Mr. Hammond's topic for his Bible reading was: "The Conditions of Prevailing Prayer." Many of those present reported instances of the converion of children at the children's meeting of the day before. A minister of the city reported the case of the conversion of his 14-year-old boy. All spoke of the deep interest of the meeting, and the impressions

> Dr. Hopper, recently installed pastor of the First Baptist Church, who had labored with Mr. Hammond in his last charge in Burlington, Iowa, spoke, bearing the following testimony to the work of the evangelist, and the methods of organization ployed by him. He said : "I have known Bro. Hammond for some teen years, and have worked with him in the East. There is somewhat of novelty in his methods and some say considerable machinery. Be it so. If we have a diffi cult work it is wise to use the best machin ery. Some of us may be inclined to criti ise some things in the methods employed

> One thing is certain that Bro. Hammond is loyal to the great evangelical truths of the gospel. God's truths set forth by our brother are for hungry, sin-sick souls, and we all do well to give up any critical attitude we may have assumed and commend to our neighbors the Savior whom the evangelist so faithfully holds up. God has blest &Bro. Hammond in his work on both ntinents, and if we come up unitedly as Christian men and women, and pray and abor with him, we shall see a gracious work of salvation in our midst."
>
> The children came together for the after

> noon meeting in large numbers. Mr. Ham-mond addressed the children. He shows great ability in this line of work. Some one recently has styled him "the greatest living children's preacher," and no one watching his method and his tact, and his command of the young, would dispute the assertion. His success seems to lie in the vivid way he brings his teaching before the minds of the children. He seems to compel understanding, and children eagerly follow his directions. Nearly all that were present apparently committed themselves

as desiring to become Christians.

The arrangements at the old Pavilion were more complete for the evening meeting than they had been on Sunday. Many important changes were noted, the floor was covered with sawdust, the seating was better arranged, the band cage in the center was removed, adding much to the appearwas removed, adding much to the appearance of the room, and improving the acoustics. meeting was in charge of Rev. Mr. Filben, of the Central M. E. Church, it falling to his lot in rotation. For half an hour a

stirring song service was kept up, then a selection of Scripture was read, and Mr. Hammond announced his text, "What think ye of Christ?" Mr. Hammond has grown older since his work in Sacramento thirteen years ago, but has not changed materially in personal appearance since then. In method he is about what he was then, earnest, nervous. intense and highly dramatic. His style is free, full of incident and anecdote, and his strong personality and magnetism are clearly factors of his success. He is per-

rightly—emphasizing the importance of thinking rightly of Him, as one who died on Calvary's cross for men. An after-meeting followed the sermon, t which most of the audience remained. Services will be held as usual to-day. At 9:30 at Ninth-street Baptist Church, at 3:30 at Sixth-street M. E. Church, and in the evening at the old pavilion. ## → + WHY IT PAYS TO BUY SHOES HERE. + >--

Every pair of shoes sold by us either gives satisfaction or dissatisfaction. The customer either does or does not come again. If he continues to trade, in the end he may buy a dozen pair of shoes. Besides, if pleased, he is likely to tell his friends of it. Through his influence others may become cus-

So if our goods are not sold for perhaps as high prices as the qualities would warrant, with increased business we can well afford the smaller profits.

But what the house cannot afford, under any circumstances, is to have a single customer not suited. We work on the idea that our SHOES MUST NOT FAIL TO PLEASE.

As to the quality of our goods, it can only be said that they represent the best work of the best American makers. We understand these men and their work so thoroughly, that when a certain kind of shoe is to be made we know just where to go in order to get the best possible results. The science of storekeeping is not so much in selling as in knowing just where, how and when to buy.

All our shoes are made expressly for us, and are not to be confounded with the ordinary factorymade shoes of commerce.

A new line of Infants' Kid and Patent Leather Shoes, made of soft, fine leathers and neatly finished with tassels, \$1 35.

Children's Cloth-top Button Shoes, with patent leather fronts (sizes 8½ to 10½), \$2 50. These shoes are made with spring heels, and are unusually neat and trim in shape.

Both of the above lines come from an Eastern manufacturer, who is the recognized leader in the manufacture of high-class footwear for children.

Captain Mullan Knocked Out, but Re turns with a Brick. Copyright, 1888, by the California Associated Press. WASHINGTON, February 6th .- The fight over the bill to give California five per cent. of the net proceeds of the cash sales of public lands for school purposes is not ended, in spite of the passage of the bill in the Senate and the favorable report thereon A particle is applied into each nostril and it Public Lands. The minority of that con mittee has made a report, signed by Holman of Indiana, Payson of Illinois, and Jackson of Pennsylvania. These Representatives say that California has already received far more than an equal share of the bounty given in public land to States. Her reports say that the grants for school and University purposes exceed in the aggregate those made to any other State,

The report says: 'This grant is to a State with a million Acts. This is an immediate grant and appropriation of money in the Treasury to California of over \$500,000, with a provision for future and additional payments. This is an absolute grant to California for use, under her own laws and Constitution, for the support of schools. Neither the character of the people of California, nor the condition of her schools offer any reason for this grant, as it is understood that her fractional silver, the exchange to be made school funds and school system are in good condition. We think, therefore, that this mutilated coin. bill should not become a law.'

WILL IT COME.

Washington, February 6th. - Messrs. Tarpie, Clunie and Irish are expected here ment on the subject of the white scale, Their arrival, it is believed will give an impetus to the boom that has been started n favor of helding the Democratic National Convention in San Francisco. The work of the local committee, in calling attention to the advantages that San Franisco possessed as a Convention town has mittee on Public Buildings and Grounds orne some fruit, and a great deal more inquiry is made regarding the matter now than when the committee began its labors. It has been suggested that if the Con ention was held in San Francisco it might materially change the complexion of the ticket, and possibly bring in the States of California and Oregon. It has been sugeral banking firms of San Francisco, togested that it would be a good plan to nomegether with the Board of Trade and Cham-William T. Coleman, as the candidate for Vice-President, and that the prestige which that his request be granted. the holding of the Convention in Califor-nia would give the Democrats of that State would carry the entire Pacific Coast for the Democratic ticket.

The supporters of Cleveland, who entertain some apprehension that Hill might seriously impede his nomination, if the onvention were held in any of the Western ities, believe that the name of New York's overnor would hardly be mentioned in ne Convention, and that Cleveland would through with a rush in San Francisco he President, when the subject was first roached, said he thought the distance too the case presented to him in a new light, and he will not take sides either for or

The California Senator's Reasons for Voting for the Mississippian. Washington, February 6th.—Senator stanford, of California, has written the following letter to a constituent who asked his reasons for voting for the confirmation of Mr. Lamar, as Justice of the United States upreme Court:

Washington, February 6, 1888. Your letter asking my reasons for voting for Lamar has been received. I voted for him because I considered him one of the best men in the South, for he is, in my jutgment, a broad liberal-minded man of a great deal of learning. liberal-minded man of a great deal of learning. He was Professor of Law in the University of Mississippi, and I think he is a thoroughly converted Unionist, and do not think it wise to reject anyone on the ground alone that he was engaged in the late rebellion. I think that we want to be one people—politically and socially. General Grant expressed the idea when he said. "Let us have peace." Lawar's loyalty and integrity to the Union was passed on conclusively when both houses of Congress provided for the succession to the Presidency, and made him an heir only a few removes from the Presidency. I am reluctant to find myself not in harmony with all the Republican Senators, but it was a case—so far as my action was concerned—entirely for my own judgment and conscience, and I voted accordingly. Respectfully yours, LELAND STANFORD.

CONTESTED SEATS.

The House Concludes to Consider Contests on Their Merits.

Washington, February 6th .- The Whiteowery contested election case was settled n the House to-day by the adoption of the minority report, which entitled White to retain his seat. He was given his title by a vote of 187 to 107, and had there been a necessity for additional Democratic votes to maintain White's rights, those votes rould have been forthcoming. The action of the House is interpreted to mean that contested cases will be decided by the House upon their merits simply, and no further idea of keeping the control of the majority of States in the House in

Democratic hands is entertained. California contests will be decided without regard to this question. CONGRESSIONAL PROCEEDINGS.

BREAKFAST. "By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately-flavored beverage which raay save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.
